

Dana Wolter

PRACTICAL MAGIC

Chaos ruled in the large clan Dana grew up in, and as both a creative outlet and quest for serenity, she often gave her own or her siblings' bedrooms drastic overnight makeovers. After studying journalism and working in sales, she was approached by friends who wanted help renovating. First a hobby and then a career resulted, with Dana Wolter Interiors opening in Birmingham, Alabama, in 2005. The mother of three creates "real homes for real people"—blending comfort and elegance through layering textures, making the most of light, and combining modern, antique, and classic elements for interiors that look stylish and live well.
